

## **Friends of St Mary's**

### **Statement with respect to monthly draws**

#### **To all our wonderful members of the Friends of St Mary's Lottery scheme.**

Due to the Coronavirus pandemic and the Government guidelines that demand social isolation, our committee have decided that we cannot at present hold our monthly draws and abide by these guidelines.

We had considered holding our monthly draws remotely and then issue winning cheques via the postal service but recognise that winners might not be able to cash their cheques if they are also self-isolating.

However, we promise that when things get back to normal – whenever that is – we will hold a series of draws for the months we have missed (starting from the month of April).

We hope you will understand the dilemma we have but given the circumstances we think that this is the safest way for everyone.

We are also placing this information on the Meeting Point website so that we can try to inform as many of our members as possible.

We will also make every endeavour to get in touch with any of our members who may not have internet access and also those who live a bit further afield who have been kind enough to keep their memberships going, even after moving away from the area.

We are so grateful for your continued support - please keep safe and stay well.

If you have any queries or need further information please give me a ring on 01454 614890.

Thanks ,  
Andy Phillips  
Chairman of The Friends of St Mary's
